AnalytixLabs – Data Analytics Certification <i>Python, SQL, Business Intelligence & Data Visualization</i>	Bangalore Apr 2023 – Dec 2023

PROFESSIONAL EXPERIENCE

Forbes Advisor – A global platform for independent personal finance advice. <i>Senior Data Research Associate</i>	Chennai, India Jan 2024 – Dec 2025
- Standardized data validation workflows for 15+ quarterly projects, improving data accuracy by 35% and delivering reliable data reports for editorial and product advisory teams. - Reduced reporting turnaround time by 25% by coordinating cross-functional stakeholders (editors, analysts, and engineers) and maintaining clear ownership and formalized follow-ups to accelerate decision-making. - Accelerated editorial and product decisions by leading a cross-functional team of 4 across data, engineering, and editorial, streamlining Agile sprint communication and reducing delivery bottleneck resolution time from two weeks to 2–3 days. - Increased platform accuracy by 20% as Knowledge Lead for Datahive, an AI-powered research and content intelligence platform, driving data quality improvements and process transformation.	
Itilite Technologies – SaaS platform for business travel and expense management. <i>Operations Executive</i>	Bangalore, India Nov 2021 – Jan 2023
- Enhanced operational visibility by designing real-time dashboards tracking 5+ KPIs, enabling data-driven monitoring across technology-enabled SaaS operations. - Drove process optimization by identifying and resolving recurring workflow bottlenecks, reducing service delays across daily operations. - Improved enterprise platform usability by collaborating with product and engineering teams to resolve 15+ UI/UX issues, contributing to digital product enhancement and operational efficiency. - Strengthened operational decision-making by building structured cost, delivery, and service impact analyses across 3 core operational functions, directly informing process prioritization by senior stakeholders.	

SELECTED ACADEMIC & CONSULTING PROJECTS

Temu Africa Market Expansion Strategy	<i>Innovation & Strategy in Emerging Markets</i>
Conducted strategic analysis of Temu's expansion into African markets, evaluating institutional voids and competitive positioning. Developed Python-based data visualizations to support strategic recommendations on operational scalability.	
Pricing Optimization for Zalora	<i>Pricing Analytics</i>
Built an OLS demand estimation model and applied Excel Solver optimization to derive revenue-maximizing pricing strategies. Delivered an advisory report balancing data-driven pricing with market-defensible recommendations.	
AI Chatbot Development (GEM Bot)	<i>Contemporary Topics in Markets & Management</i>
Designed and developed an AI-powered chatbot using Google Gemini to explore applications of artificial intelligence in business infrastructure and digital innovation.	
Marketing Analytics & Strategy	<i>Marketing Analytics Visualization & Communication</i>
Created advanced Tableau dashboards to analyze marketing performance data, translating insights into strategic recommendations for data-driven business decision-making.	

LEADERSHIP & COMMUNITY IMPACT

Volunteer Mentor – PEER Community Programme, MENDAKI/Yaseen MENDAKI Initiative, Singapore
Mentored secondary school students through a structured community development program, facilitating skills-building sessions focused on personal development and goal-setting, aligned with inclusive social impact initiatives.
